

 Customer Analytics System

Comprehensive analytics for sales, customers, and loyalty management

 Data Upload

Import customer, sales, and coupon data

Upload Customers

Import customer records from CSV or Excel. Existing records with the same VIP ID + Phone will be updated.

 Upload Customers

Upload Sales

Import POS sales transactions from CSV or Excel. Existing records with the same Invoice Number will be updated.

 Upload Sales

Upload Coupons

Import coupon records from CSV or Excel. Existing records with the same Coupon ID will be updated.

Analytics & Reports

Analyze sales performance, customer behavior, and coupon usage

↑ Upload Coupons

Sales Analytics

Return visit rates by VIP grade, season and shop. Filter by date range and export Excel reports.

View Sales Analytics

Sales Analytics Charts

Visual summaries of key metrics as donut charts. Interactive shop trend lines by month, season, year, or week.

View Charts

Customer Analytics

Compare POS System vs CNV Loyalty customers. Filter by date and view detailed comparison tables.

 [View Customer Analytics](#)

Customer Charts

Visualize CNV/POS registrations, Zalo engagement trends and year-over-year comparisons.

 [View Customer Charts](#)

Coupon Analytics

Track used/unused rates per shop. Filter by Coupon ID prefix and export Excel reports.

 [View Coupon Analytics](#)

Coupon Analytics Charts

Visual summaries of coupon usage rates and trends across shops and campaigns.

 [View Charts](#)

Shop Detail

Drill down into a single shop: sales return rates, customer registrations, and coupon usage with period filters.

 [View Shop Detail](#)

Customer Detail

Search individual customer by VIP ID or Phone. View purchase history and CNV sync status.

 [Search Customer](#)

Additional Tools

Formulas reference and CNV sync management

Formulas

View detailed formulas and calculation methods used in analytics reports.

 [View Formulas](#)

CNV Sync Status

Monitor CNV Loyalty synchronization status. View sync logs and statistics.

[View Sync Status](#)

Admin Logs

View the latest INFO, WARNING, and ERROR log entries from the application.

How It Works

1

Upload Data

Import your customer database, sales transactions, and coupon records. Duplicates are automatically updated.

2

Analyze Performance

View comprehensive analytics on sales, customer behavior, and coupon effectiveness across different periods and segments.

3

Sync with CNV

Automatically synchronize with CNV Loyalty platform to compare and validate customer data.

4

Export Reports

Generate and download comprehensive Excel reports with detailed breakdowns and insights.
